

## **Defensive Driving**

*Save money* on auto insurance by completing this National Safety Council Defensive Driving Course! What's more important is that you may prevent a tragic accident that could cause you and others serious injury or death.

The course includes methods to avoid traffic accidents, build confidence in driving skills, ways to avoid injuries or fatal collisions & how to develop a defensive driving attitude. Learning these skills, we can protect ourselves & others in our vehicle and make the road safer for all.

*This course qualifies for the 10% discount on insurance rates in Georgia.* Eligibility for the discount continues 3 years, provided the driver commits no moving traffic offense or has a claim against the policy based on an at-fault accident. (Please consult your insurance agent to determine exactly how completing this program will affect your rates.)

Gean Hendrix — instructor

**Note: This is *not* for persons whose licenses have been suspended or revoked, nor for point reduction.**
